Port Townsend

Good to Know

Shredded Paper

Put shredded paper in a paper bag and roll down the top before putting in your recycle bin.

Contamination

Food residue is a contaminant that ruins the recyclability of materials. If you can't empty and rinse a container please don't put it in your recycle bins.

Safety

Needles, sharps, ammunition and other dangerous materials turn up at sorting facilities every day. These are all safety hazards for employees and should never be put in recycling bins.

Plastic Items NOT Accepted:

- **Dairy and margarine tubs**
- **Plastics numbered #3–#7**
- **Lids**
Throw lids in the trash. Plastic lids and caps are too small to be sorted properly and don't get recycled.
- **Bags and Wrap**
Grocery bags and plastic wrap get tangled in machinery at sorting facilities. Throw plastic wrap in the trash. Reuse plastic bags or take back to participating grocery stores for recycling.
- **Crinkly and Lightweight Plastic**
Items like plastic drink cups, clamshell packaging for produce, and packaging around toys and electronics are not recyclable.

Curbside Collection Reminders

- All containers should be at the curb by 7:30 a.m.
- Garbage cans must be smaller than 32 gallons. Oversize cans will be charged extra.
- Garbage cans must weigh less than 50 pounds. Overweight cans will be charged extra.
- Garbage cans should have tight fitting lids to keep out animals and reduce litter.
- Every other week customers should put out garbage cans the same week as yard waste.
